DOLOCAST™

Products made of DOLOCAST™ offer a unique appearance. The material gives design flexibility that goes beyond possibilities of all traditional materials.

DOLOCAST™ comes from nature. Its main ingredient is dolomite. Dolomite is composed of calcium magnesium carbonate, $CaMg(CO3)_2$. It was formed over 250 million years ago when the Earth witnessed increased volcanic activity. Dolomite sedimentary rocks were covered by layers of magma. High temperatures and enormous pressures recrystallised original minerals. Due to metamorphic processes the dolomite marble gained a beautiful look and hardness.

Today raw materials are sourced from carefully selected certified mines located in EU. Then the rocks are milled and purified.

The outer layer of a product is made of nanocoat, hardened resin with pigment and particles of quartz. It determines the final gloss and smoothness of the surface.

DESIGN FLEXIBILITY

DOLOCAST™ is a material that liberates creativity. Its extraordinary properties allow for unlimited design possibilities. The material's innovative structure gives freedom of form, therefore countless designs are available.

DURABILITY

DOLOCAST™ is a unique structure which enables dolomite stone to attain a whole new level of durability in the bathroom. Products remain in a brand-new condition for many years.

PRECISION IN FORM, EDGES & RADIUSES

DOLOCAST™ is precise by its very nature. The material enables an extensive range of shapes to be created that frees up the imagination of designers.

SOUND INSULATION

DOLOCAST™ offers exceptional acoustic absorption. This feature comes from high particle density contained in the material. It prevents the sound of water striking a surface, and so improves living comfort and convenience of use significantly.

SUPERIOR FINISH

Just one touch and you'll feel the nature inherent in our material. Baths and basins made from DOLOCAST™ are pleasant to the touch and have a smooth finish. They are resistant to even the most extreme conditions due to the inherent strength of the nanocoat surface.

WARMTH

Products made from DOLOCAST™ maintain an optimal temperature for a long time, they are always warm to the touch and provide unprecedented comfort in the bathroom.

Bathing

Lie back, relax and let us provide you with the perfect bath to complement your bathroom. We have a wide selection of baths to fit everyone’s needs. Whether it’s a freestanding bath that provides the wow factor or our shower baths for those short on space, there really is a bath for everyone.

DOLOCAST™

Products made of DOLOCAST™ offer a unique appearance. The material gives design flexibility that goes beyond possibilities of all traditional materials.

DOLOCAST™ comes from nature. Its main ingredient is dolomite. Dolomite is composed of calcium magnesium carbonate, $CaMg(CO3)_2$. It was formed over 250 million years ago when the Earth witnessed increased volcanic activity. Dolomite sedimentary rocks were covered by layers of magma. High temperatures and enormous pressures recrystallised original minerals. Due to metamorphic processes the dolomite marble gained a beautiful look and hardness.

Today raw materials are sourced from carefully selected certified mines located in EU. Then the rocks are milled and purified.

The outer layer of a product is made of nanocoat, hardened resin with pigment and particles of quartz. It determines the final gloss and smoothness of the surface.

DESIGN FLEXIBILITY

DOLOCAST™ is a material that liberates creativity. Its extraordinary properties allow for unlimited design possibilities. The material's innovative structure gives freedom of form, therefore countless designs are available.

DURABILITY

DOLOCAST™ is a unique structure which enables dolomite stone to attain a whole new level of durability in the bathroom. Products remain in a brand-new condition for many years.

PRECISION IN FORM, EDGES & RADIUSES

DOLOCAST™ is precise by its very nature. The material enables an extensive range of shapes to be created that frees up the imagination of designers.

SOUND INSULATION

DOLOCAST™ offers exceptional acoustic absorption. This feature comes from high particle density contained in the material. It prevents the sound of water striking a surface, and so improves living comfort and convenience of use significantly.

SUPERIOR FINISH

Just one touch and you'll feel the nature inherent in our material. Baths and basins made from DOLOCAST™ are pleasant to the touch and have a smooth finish. They are resistant to even the most extreme conditions due to the inherent strength of the nanocoat surface.

WARMTH

Products made from DOLOCAST™ maintain an optimal temperature for a long time, they are always warm to the touch and provide unprecedented comfort in the bathroom.

Terms and conditions

To be covered by our guarantee you must be the original purchaser of the product. You must register online at www.mylifebathrooms.com and click register guarantee to complete online form within 30 days of purchase. All products must be bought and installed in UK or Ireland by a qualified plumber and only covers domestic use. Products must be installed according to our instructions and maintained and cleaned according to our recommendations. MyLife will not cover products against accidental or malicious damage, improper use or negligence. In our opinion if the product has been modified, neglected, wilfully or accidentally damaged, MyLife is not responsible for this failure. This guarantee does not cover general wear and tear or poor installation. No claim will be accepted if a product is installed with a fault that if at any stage found not to be due to a manufacturing fault. MyLife reserve the right to charge for an installers time and replacement goods if the claim is not due to faulty manufacture. If there is a problem due to manufacturing fault we will replace the goods. If the goods are no longer available we will replace this with the nearest equivalent.

This guarantee will never cover consequential loss.
This does not affect your statutory rights.

The minimum bar pressures stated in our brochure serve as a guideline to incoming water pressure required to give the relevant flow rates on our technical data sheets. Pipe work diameters and distance of flow runs can be different from household to household and may in turn affect the flow rates stated.

Product colours may vary. All measurements are in millimeters and together with photographs are for guidance only. We reserve the right to change specification without prior notice.
